#### Late Assignments Penalty Code

**Code 1:** A marking penalty for late submission of 5% of the marks available for the item of assessment for every day, or part thereof, beyond the date and time of submission (or any extension granted).

**Code 2:** A marking penalty for late submission of 5% of the marks available for the item of assessment for every day, or part thereof, beyond the date and time of submission (or any extension granted).  
Once the mark has reduced to 50% of the total marks available for that assessment item, there will be no further penalty.

**Please note:** If a subject has not nominated Code 1 or Code 2 for a particular piece of assessment, the default penalty code is Code 1.

#### Marking Prerequisites/Code

**CODE 1:** Any word limit will be enforced strictly and any excess will incur a marking penalty.

**CODE 2:** Work judged grossly in excess of any word limit may incur a marking penalty or be returned for rewriting. If the examiner does not specify some other threshold, work will be judged grossly in excess of a word limit if its length exceeds that word limit by 10% or more.

**CODE 3:** Any word limit will be regarded as recommended rather than compulsory, and no student will be disadvantaged by exceeding the limit.

**Please note:** If no word limit code has been nominated for a particular piece of assessment, the default position is Code 2.
